**As a UX designer, I believe that everything is a story - and my role is to create the most addictive and engaging one.**

I have a background in graphic design creating promotional materials, digital and to print. I've prepared tones of static and WordPress pages which gave me an interesting experience from the other point of view. Through all of my career, I was close to the customers and my responsibility was to constantly improve their experience.

All of this led me to the path I want to follow: to be a part of the process of creating the best possible user experience with digital interfaces.

## Work experience & education

### Project Coordinator & COO @ CODE:ME

*04/2015-12/2019 in person and till today as a friendly ghost*

Running a business which involves: planning courses, recruiting trainers, project management, team lead. I've also been responsible for redesigning process of a new website.

### Assistant & Tech freak @ GIP Starter

*09/2014-08/2017*

I started as an intern and then stayed a little bit longer. I did a tone of pictures, wrote hundreds of words and created simple WordPress websites for educational projects. I helped with many events for kids and organised some for adults.

### Freelance graphic designer

*2012-2015*

Mostly small projects for screens, few small printed things and one big banner.

### University of Gdansk, Polish philology

*2009-2014*

Master degree: 'Why corpses are funny? Word play in novels by Joanna Chmielewska'
